EDWARD KENT The locofoco papers are in a quandary. They are aware of the deserved come out and denounce him as a "federalist," " haughty and aristocratic." The Piscataguis Herald contains an excellent reply-to these charges, which reply is true to the letter, as his neighbors and fellow citizens are all ready to attest. The Herald says :

Every man who knows Edward Kent, knows that there is not a man in the State more open: and Republican in his manner, more free from any thing like aristocracy in his feelings and than he. He is emphatically one of the people; his sympathies and his feelings are all with them; and the numerous marks of confidence he has received from his fellow citizens, show the estimation he is held in at home. He went to Bangor a lew years ago a young man and a stranger with no capital except a good knowledge of his profession and a character for honesty and inteority, of which any mon might well be croud His worth and merits did not long remain hid from the public. He was twice selected to represent his district in the State Legislature, twice chosen Mayor of Bangor, by an unexampled majority, and last fall received for Governor the wise, must be severe, or rather lengthy; largest inajority of votes ever thrown for any inach doubt whether the winters are great mass of the voters are surplistically of the working classes, mechanics and tabasses. great mass of the voters are emphatically of the working classes, mechanics and laborers, he re-Ach, as those of Connecticut and ceived nearly a thousand rotes. This evidence phia a few days since.

Of his popularity where he is best known, speaks volumes in his favor The assertion that Mr. Kent is aristocratic in his feelings, is not inten- ginia and Maryland, as in this vicinity, are sufded or expected to be believed at home, where by when the mercury falls below 0 his character is known. It is only designed to the dre, and as the atmosphere when be enculated among those at a distance, who have no personal knowledge of him, and who as the authors of the charge think, may be induced to believe any thing that comes to them stated with such a positive air. The charge hardly deserves a serious refutation.

But there is another charge against him which they do not dare to make openly, lest it should produce among the people a very different effect from what they wish. It is, that he is trying to bring our Boundary question to a speedy settlement. This it is that the party leaders opposed to him can never forgive. Any thing else they might be disposed to overlook His removal of incompetent officers they would toler ite, for it is a part of their creed, that offices are the 'spoils of victory. His general popullarity, his republican simplicity of manners, his strict integrity, his warm advocacy of temperance principles, his general purity of private character, against which the breath of slander has neverdated to whisper a word, all these they may overlook, or hope to wink out of might of the people by raising the cry of Federalism But his devotion to the lionist and interests of Maine, and his resolute assertion of her rights, they cannot keep used them unpardonable sins. They cannot bear the thought that the Boundary question should be brought to a decising under his administration, and therefore they abuse him for what he has done, in no measured terms. We verily believe that the Tory Edither south, will leave veg. ore throughout the State would rather see the whole territory in dispute given up to the British without a struggle, than that the honor of saving it should belong to a Whig administra-But the peaple have something else than tion a party interest in this question. They have weighed the inaction of a Tory administration in regard to it long enough; and they have come to the conclusion that it is best to try another system. PATENT SAFETY FUSE. NEW article for blasting, both in dry places

and under water The Patent Safety Fuse in blasting, takes the place of priming needle and match, and removes all danger in a riking fire in famping and borns at a measured rate renders the dangerous business of blasting as safe as any other employment. It saves size of a kinting needle. It adds considerable to the force of the blast, by igniting the charge at the bottom. The follows.

The following certificates are deemed sufficient Having seen the Patent Salety Fuse for blasting ested to our satisfaction, we cheerfully certify that, we are consinced that it saves much time and labor adds to the torce of the blast, ensures certaints, and renders blasting perfectly sale for dry blasting it is a great improvement, but for well ground it is invaluable. Messrs P Hitchins & Co 1 contractors on Erie ranal certify that they have hern engaged in the Cornish Mines, England where the fuse is extensively used and that it has never to their knowledge tailed. They confirm our opinion of its value. We make no doubt that it will soon be in universal use DAVID HAMILTON Superintendent of Eric Canel

DR. BRANDRETH'S GENGINE PILLS Doetor Sangrado's system still

Lives in the world, to kill, to kill ! ITTHIS system does indeed live still, and is practised by the very men who laugh at Doctor Sangrado as a visiquary, fool. The immaculate Faculty! Let this trull be impressed upon every Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of mothid, stagmant and corrupt humors IN THE BODE by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, then take "Brandreth's Pills, concected forth

From the pure products of the parth; They own no after sad alloy, They often save, but ne'er destroy ! BLEEDING ALWAYS IMPROPER.

"For the life of the flesh is in the blood," Leviticus, chapter xvii. w. H. Witen the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated, bleeding will no longer he thought of as a remedy for diseases, for it violent inflammations, eight or ten of them will take, in the churse of two or three hours, more of the unjure humors from the boily, by the stomach and bowels, than bleeding to the extent of forty nances could possibly have done, and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of llammation । whereas bleeding removes the essential parts also. How great the prostration of all On the contrary, what agility and strength is felt after a dose of this medicine; the body is indeed lightened of mload. Nothing is equal to ridding the vittaged humors with a vegetable medicine of this kind, which 84 years have proved never to do mjory, but always good. Is the pulse too high? A dose of these Pills will bring it down. Is it too low? the same means will increase it to a proper Is it tremuloss, showing nervous excitement? the Pillstby snothing the system will allay it.

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr. B. who have for many years been in the habit of being bled as often as four times in a year y and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lust a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and havig a vein opened, they have swallowed six or eight Pills, which soon removed the viriated humors that were impeding the blood in its circulation. Those rensible people simply by the use of these invaluable. Pills, are increasing every day, the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure, by the use of Brandreth's Pills, alone, are submitted with respect, to the unprejudiced portion of the Boston public.:

ASTUMA CURED. The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich, Ct., deserves, by all persons, a careful perusal. The most projudiced must own that evidence is on the side of these Pills. Which, by the cures they are daily making show there is no nevessity for any other medicine.

This is to certify that Thomas S. Brown Greenwich, Ct., was taken with a cold, numb feeling, on the 13th of June last. * THE most safe, effectual and economical remedy for diseases of the Human Constitution, that

These Pills are composed entirely of materials exracted from Medical Plants, and are warranted not to contain one particle of increary, or any mineral substance Dr. Kingley, the inventor of this value able medicine, from his knowledge of the human system derived from a long and extensive practice, has arrived to the conclusion, that the great and primary cause of most diseases is a derangement in the functions of the liver; or in other words an increased or diminished secretion of the Bile.

So well is this understood, that it is common ersons to say when they feel unwell that they are bilious, meaning that they have too much bile in the stomach. On the other hand, when the flow of bile is diminished, the process of digestion is imperfectly performed the patient becomes weak and emariated. because nourishment contained in the load taken into would ensure, and that man very short time. The is ejected in a crude state. Dr. Kingley is confident that the famous Hygean Theory so-called, that mopurity of the blood is the cause of all diseases," strangulation. He was reduced to a mere skeleton, it a great absurdity. Every one who reflects upon the subject a moment, will perceive that impurity of the effect, and not the cause of the disease. When the functions of the liver are deranged, and the flow ent vessels and carried into the circulation, and be eral, its ADVANTAGEOUS POSITION, with regard to affilie bile, and to remedy it you must correct the already productive of serious inconvenience:

> Dr. Kingley has spent much time in experimenting with different vegetable medicines, for diseases and thus affording the choice of both the Eastern of the liver, and now offers his Universal Family and Western markets, and taking into view the Pills as the best, most convenient and cheapest medicine, that can be prepared for general use; and in offering them to the public, he is actuated more thus enabling the enterprising company to comby benevolent than pecuniary motives, as the price of the medicine will show.

Dr. Kingley flatters himself that his long experimenting with vegetable medicines has enabled him to discover the time and only substitute answering all-the purpose of mercurials, without any of their attendant evils. One great quality of his family Pills is, that they have the alterative principle combined with their eathartic or operative quality, so that they not only cleanse the stomach and bowels. by purging, but they regulate the liver, change themorbid secretions, strengthen the digestive organis, purify the blood, invigorate the circulation, and give tone and energy to the nervous system.

They are mild and pleasantin their operation, and almost immediate conviction of their utility from the first dose. They can be taken with enfery by per-sons of any age, and the feeble, the infirm, the ner-yous, the delicate, are strengthened by their opera-tion, because they clear the system of bad humors, quiet nervous irritabilities and restlessness, from whatever source, and invariably produce sound

The Family Pills are an invariable remedy for jaundice, sick and nervous headache, dyspepsia, costiveness, sickuess of the stomach, hearthurn, ell hilious complaints, levers of all kinds, and it taken at the commencement will invariably check their progress, and save the patient from a protracted and dangerous sickness. They are invaluable in nervous and hypochandriacal affections, loss of appetite, and all complaints to which females show are subject. They operate as a mild and speedy purge. and are a safe and certain remedy for worms in
